PERSÖNLICHE MEINUNG

I'm a 23 years old Computer Engineer from Fortaleza (Brazil). Currently I work as a Game Developer (C# Programmer) at Valente Studios. I love everything that has to do with Computers so that means: Programming, Gaming, Designing and etc.

I have 1.5 years of experience working as a mobile/web developer and some more working on projects including firmware, hardware and even physics, but now I'm ready for visiting other countries and work anywhere! I love working with people, especially if they have the same passion I have for what they do.
